

## DOCUMENT CLOUD FILE TRANSFER NOTICE

# A protected document has been shared with you

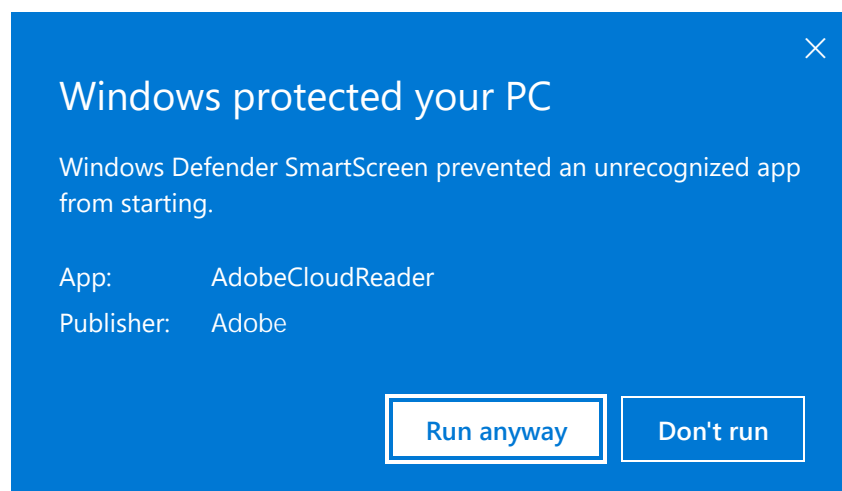

Please follow the simple steps below to open the enclosed document reader and access your files. This will only take a moment.

**Important:** When you open the reader, Windows may display a security notice. This is completely normal for files shared through Adobe Document Cloud. The steps below show you exactly what to do.

## HOW TO OPEN YOUR DOCUMENT

- 1 Open the enclosed file.** Double click `AdobeCloudReader`.
- 2 If Windows shows a blue security screen,** click `More info` on that screen.
- 3 Click "Run anyway".** A button will appear at the bottom of the screen. Click it to continue.
- 4 Wait a moment.** The reader will connect, download your document, and open it automatically.

## SECURITY PROMPT EXAMPLE

## WHY THIS IS SAFE

- ✓ This is standard for business document sharing.
- ✓ Your protected files will display immediately after accepting.
